

A Level English Language and Literature *Activity 1*

Magical Realism

Magical Realism is a genre of literature. This is the genre the novel *The Lovely Bones* belongs to, which is a book we study in the first year. A brief introduction to the topic of Magical Realism can be found in the PowerPoint linked below.

Complete the 'Activity 1' tasks noted in the below PowerPoint. You need to identify the elements of magical realism in the four film clips. To make this easier, you may wish to divide your notes into 'realistic elements' and 'magical elements' for each film.
