

## A Level Fine Art – Activity 3

### How to extend research beyond the classroom

Over the summer explore the world of fine art by visiting a gallery or exploring a virtual exhibition, then completing any of the following to create a bibliography – don't forget to record your sources!

- Make notes in the gallery or use a small sketchbook to capture your findings
- Read more about the artists/installations you experience
- Source wider topics that relate to the art you've experienced
- Watch iPlayer/YouTube/documentaries/etc. to see how your experience compares with the opinions of others
