A Level French *Activity 1*

Why study French?

Learning a Modern Foreign Language has many benefits. From increasing your memory to building your critical thinking skills, an A Level in French is so much more than developing your French language skills.

In this task we are asking you to create a short opinion piece on the advantages of studying French. This opinion piece should be written in French, and you could discuss a wide range of topics, from politics to culture, employability to literature. There are plenty of resources online for you to use in your research. The below clip may be useful.
