A Level Geography *Activity 2*

Changing places

Having an interest in the characteristics of your local area is an important part of geography. This links to the Changing Places topic on the A Level Geography course. Places can be 'represented' or portrayed in different ways. One way is by using a 'place mosaic':

The above place mosaic is for a remote part of the Northumberland coast. Take a camera (phone) out into your local area, take a variety of pictures and create a place mosaic for your local area.
