

Applied Performing Arts – Musical Theatre *Activity 1*

Live Musical Theatre

Watch a live piece of Musical Theatre – amateur or professional.

Watching and evaluating live performance is a crucial part of the course. Only by doing this will you be able to determine effective ways of communicating with your audience.

Create a short PowerPoint or Scrapbook:

- Provide some information about the Musical you have seen – What was it about?
- Identify your favourite moment and explain what was good about it and why it connected with you?
- Where possible include photographs that help to convey/support your points.
