A Level Spanish *Activity 1*

Why study Spanish?

Learning a Modern Foreign Language has many benefits. From increasing your memory to building your critical thinking skills, an A Level in Spanish is so much more than developing your Spanish language skills.

In this task we are asking you to create a short opinion piece on the advantages of studying Spanish. This opinion piece should be written in Spanish, and you could discuss a wide range of topics, from politics to culture, employability to literature. There are plenty of resources online for you to use in your research. The below clip may be useful.
